3 Questions to Ask Yourself

What will my lifestyle be in retirement?

How much money do I need each month – after taxes?

Where will I get the money?

Where Do You Fit In This Model?

Delay the Day

The Cost of Delaying

Goal: To retire with 70% of employment income at age 65.

Starting Age	% of Salary Needed to Save
Under 35	10%
35-45	15%
45-55	37%
Over 55	67%

Diversify Your Assets To Be Tax-Wise

Rule of 100 Guideline

Rule of 100 Example for 60-Year-Old

How 'Stable' Is Your Retirement Portfolio?

- Does your strategy prioritize the protection of your accumulated money?
- Does it preserve it for future income?

Poor Financial Choices

Before you decide, ask yourself...

Am I choosing vehicles for retirement saving and/or income wisely?

Health Costs in Retirement

65-year-old healthy couple's total healthcare costs in retirement: \$363,946

55-year-old healthy couple's total healthcare costs in retirement (starting at 65): \$387,814

65-year-old couple who lives TWO YEARS beyond average life expectancy = additional \$37,423

So, Where Are You?

1. Do you know what you want your retirement lifestyle to be?

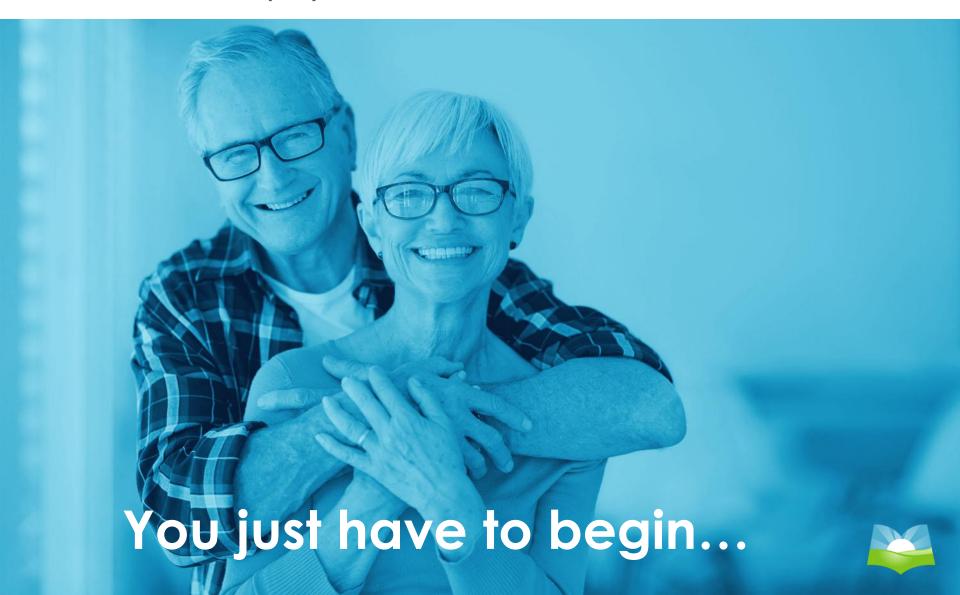

2. Do you know how much money you will need each month – after taxes?

3. Do you know where you will get the money?

If you can answer the first question, we can help you with the other two.
